GIRLSRIPT SUMMER OF CODE

Contributor Girlsript Foundation

05/2023 - Present

Achievements/Tasks

- Actively participated as a contributor in GSSoC '23, a prestigious global open source program.
- Successfully solved a significant number of issues in various open source projects.
- Collaborated effectively with diverse teams of developers and maintained regular communication channels.
- Utilized version control tools like Git and GitHub to contribute to open source projects, ensuring accurate tracking of code changes.

PERSONAL PROJECTS

Personal Portfolio Website (02/2023 - 04/2023)

- Developed a personal portfolio website using React.js.
- Utilized Tailwind CSS to achieve a responsive and visually appealing design, ensuring optimal user experience across different devices and screen sizes.
- Incorporated Material-UI components to enhance the UI/UX, resulting in a clean and intuitive interface that prioritizes usability and accessibility.
- Implemented dynamic content rendering through React components, allowing seamless navigation and smooth user interactions.
- Leveraged GitHub's version control system to manage project revisions effectively.
- Deployed the personal portfolio project using GitHub Pages, making it accessible.

ImageNation (04/2023 - 04/2023)

- Developed a web application using HTML, CSS, and JavaScript that leverages the power of the OpenAI API to generate output based on user input and a given text prompt.
- Successfully integrated the OpenAI API into the application.
- Employed version control using Git and GitHub to manage the project's codebase.
